

## Instructions and advices

We congratulate you to have chosen Uukha products, and we hope that they will bring you as much pleasure as we took to develop them.

### Safety:

Bow is a weapon, you should shoot in a range, and respect security instructions in use for this activity.

### Assembly:

Respect limbs direction : When the limb is in shooting position, the weight and size marking must be upside up.

Size choice (with a 25" riser):

70": draw length of 29 " AMO and more

68": draw length of 28 " AMO

66": draw length of 27 " AMO and less

(The AMO draw length is the distance in inches between the nock and the pressure button + 1.75 ")

Our limbs are really smooth at the end of the traction, do not choose systematically a higher size, you would loose speed.

### Weight choice:

Each pair of limbs is weighed with the median adjustment of the tiller screws. The corresponding weight is written on the limbs.

### Brace height:

We recommend to respect the value in a  $\pm 10$ mm range. Lower the brace height if you focus on speed, increase it for stability and comfort.

Curve and Xcurve models are already very fast, moreover you will be able to use brace height in the bottom of the range to get even more speed.

Size	Brace height	Size	Brace height
72"	232 mm	64"	205 mm
70"	225 mm	62"	198 mm
68"	218 mm	60"	192 mm
66"	211 mm	58"	186 mm

### String:

The chart indicates the number of strands we advice depending on the weight measured at your draw length and the string material.

Poundage	20#	25#	30#	35#	40#	45#	50#
8125	12	14	16	18			
Astroflight	10	12	14	16	18		
8190	16	18	20	22	24		

### String length leading to advised brace height\*:

Limbs	Xcurve	Curve
70"	1700 mm	1685 mm
68"	1650 mm	1635 mm
66"	1600 mm	1590 mm

\* with Xpro, Upro or Uprolite 25" riser ( and most of risers on the market )

### Maintenance:

UUKHA products are covered with a varnish, use simply water and gentle soap to clean them.

In case of impact having deteriorated the varnish, be aware that the composite structure is perfectly waterproof and will not absorb water. To preserve the aspect of your product, you can make a final improvement of varnish..

### Guarantee:

UUKHA products are guaranteed against any manufacturing defect.

In spite of our controls, if you detect a defect, please contact your dealer.
